

VRScheduler Benefits Guests and Owners

THROUGH SUPERIOR PROPERTY CARE.

WHAT DOES THAT MEAN?

For Guests

**Room Readiness**

There is nothing worse than showing up to a dirty property. VRScheduler gives visibility into the status of the rooms, and creates schedules and task reports to ensure the staff is on track. All this adds up to ensuring your property is guest-ready when you arrive.

**Fewer Issues**

Issues are reported, tracked and managed through the **VRScheduler** property care software so they can be taken care of quickly. Staff can submit found issues immediately right through their phone, and mark issues as urgent so that maintenance can be deployed - well before you even show up!

**Amazing Stays**

VRScheduler keeps all the background tasks, well, in the background so guests and hosts can focus on what's most important, amazing stays and experiences.

For Property Owners

**Peace of Mind**

Cleans, Maintenance and all other tasks are automatically scheduled and tracked through Vacation Rental Specific software - significantly increasing accuracy and reducing mistakes.

**Visibility into Property Care***

Through a personal dashboard, view cleaning and inspection reports and see open issues.

**Manage Owner Stays***

Owners can enter personal and friends & family stays, and be sure the property will be clean and ready.

**More Revenue**

Automated and route optimized staff schedules mean faster turns and higher occupancy.

**Even More Revenue**

Reduced guest complaints and better guest experiences means more repeat stays and referrals and most importantly amazing reviews.

**Save Time**

Integrated with top booking platforms like Airbnb and VRBO to reduce time spent emailing bookings and related errors for rent by owner property owners.

**Note not all VRScheduler customers choose to use all available features.*

Trusted by thousands, **VRScheduler** puts everything you need to get work done in one place. It's the calm, organized way to manage vacation rental properties and staff.
